Experience

2017-08 -

Web Development Immersive Student

2017-11

General Assembly

12 weeks, 600+ hours, 4 projects built using HTML, CSS, JavaScript, Ruby, Rails, SQL, AJAX, Express, MongoDB, Ember, Git and other technologies.

Projects:

- **Tic-Tac-Toe** - ccasner.github.io/tic-tac-toe/
 - An app for playing a standard game of tic-tac-toe with authentication included.
 - Front-end JavaScript client that consumes a Rails Tic-Tac-Toe API.
 - Built a web application from scratch, without a starter codebase.
 - Used programming skills to map out the game logic for a simple Tic Tac Toe game.
- **Toll Tracker** - ccasner.github.io/full-stack-application/
 - An app that allows you to keep track of the tolls you pay as you commute on the Massachusetts Turnpike.
 - Full-stack web application built with an interactive JavaScript front-end and a Rails API.
 - Built a single-page application (SPA) with basic user authentication using a custom API.
 - Built an app that can create, read, update, and delete data in a SQL database.
- **Bucketlist** - squadrilateral.github.io/bucketlist-front-end/
 - An app that helps you keep track of all the activities on your bucket list including those you've already completed.
 - Full-stack web application built with Express and MongoDB.
 - Integrated a third-party API, Yelp Fusion, used to search for businesses to add to the list.
 - Built on a team with three other colleagues.
- **POOL** - ccasner.github.io/capstone-front/
 - An app that helps connect you with your circle of friends to find safe rides for your kids.
 - Full-stack web application built with a custom Rails API and Ember front-end.
 - First project using a front-end JavaScript framework.
 - Integrated Bootstrap for enhanced User Interface Design.

2014-08 -

AutoCAD Specialist/Project Assistant

2015-08

Bargmann Hendrie + Archetype

Worked closely with Project Managers and registered Architects drafting and editing floor plans using AutoCAD and Revit for multiple clients in the Greater Boston Area. Helped edit specs and write punch lists through Procure communication.

Education

2010-08 -

University of Vermont

2013-05

Completed 90+ credits towards a B.A. in Mathematics.
